Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: This UAA survey was conducted in May 2007 and no WBCR was observed. No interviews were conducted during the survey. During the 2005 survey, children were observed wading in the stream.

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The stream met the maximum depth criterion at 1 of the 6 sites evaluated and was close at 1 other site. Due to meeting the maximum depth criterion, the committee recommends the WBCR use designation be retained. Due to evidence of secondary contact (children wading), the committee recommends Secondary Contact Recreation be assigned.

☐ Add Use ☒ Retain Use ☐ Remove Use
☐ Modify Use ☐ Inconclusive
